NAE Season Launch Event Invitation

Join us on Friday, 21st February, 6pm - 9pm,
to celebrate our Season Launch!

THE LOVERS

This powerful exhibition reclaims love in all its forms, challenging stereotypes and increasing visibility for LGBTQIA+ communities. This intimate collection documents cultural shifts over 40 years and is a testament to resilience and the ongoing journey toward equality. It also serves as a reminder to continue advocating in the face of ongoing challenges.

We're thrilled to present our next exhibition, *The Lovers*, a bold photography series by **Sunil Gupta and Charan Singh** showcasing intimate portraits of LGBTQIA+ couples, capturing connection, identity and pride.

Internationally renowned artist Sunil Gupta was born in India and moved to the UK from Canada in the late 1970s when the Gay Liberation Movement gained momentum. His work focuses on representation, racial identity, and LGBTQIA+ activism. Like Gupta, Singh's artistic practice also engages with the void of representation for him personally and his communities. Their recent collaborative practice has fostered a dynamic dialogue between their works.
